

Numbered Memorandum 06-27: “Carbon Fiber Search Request—Addendum”

Please reference: Numbered Memorandum 06-24: “CARBON FIBER--FALSE CLAIMS ACT CASE—SEARCH FOR DOCUMENTS—INVOICES; PAYMENTS”

The Office of General Counsel has provided the following additional information related to the search request from the Department of Justice for documents relating to Carbon Fiber.

Part of the previously forwarded search request for carbon fiber information included a request for documentation showing DOE purchases of products containing carbon fiber. Carbon fiber is found in a diverse, and wide-ranging number of products (tennis rackets, fighter jets, drill bits, etc.). Plaintiff’s/relator’s counsel in this lawsuit, bringing suit on the government’s behalf, have provided a list of some products that contain carbon fiber. The list contains mostly, but **not** all, defense related items. The lists are not all-inclusive, and are provided as a helpful guide.

If you have questions regarding this request, please direct them to Tom West, 202-586-5677. Please e-mail your response to Tom at: Thomas.west@hq.doe.gov by June 9, 2006.
